Hey Jeff! Hope all is well. I was part of the opening crew at Husk in Nashville and we've met a couple times. I know this may seem out of the blue and we have barely spoke, but I have a question you may be able to answer. My partner and I are aligning ourselves to be able to buy land and farm for ourselves in the next 5 years or so. I currently live in Chicago but would love to move back to middle TN. Do you have any suggestions for farmsteads accepting interns within an hour or two of Nashville? Thanks so much for your time! Wesley

Hello my friend sorry for the late birthday wish, but I have been busy with a new project. I do have a question for you what would it take to get you to come and give me a one year tutelage one biodynamic farming well to be more to the farming of weed bio think hard not a joke and it would be at my business that is soon to be starting up. I want real value of what it would take if it you would even consider it or not thank you Jeff

On behalf of the Metro Health Department, Nashville Farmers' Market and the work of the Nashville Food Policy Council members, I would like to encourage your support and ask for your attendance during the Public Investment Proposal presentation this Wednesday, March 30 regarding the Regional Food System Assessment. Tom Sharp and I will present the proposal to the Mayor and a panel of city leaders in an effort to request consideration and funding for the collaborative proposal.

The presentation will take place at the Entrepreneur Center and begin at 10:45 am sharp and will last approximately 10 - 14 minutes including Q & A.
The proposal is two fold:

- 1) Invest in a regional food assessment
- 2) Invest in the creation of a Food System Development Office within Metropolitan Government

I'm interested in being an Intern how do I get started?

Hey Jeff,

(and Kristina,

smile emoticon

It was so wonderful meeting you both at the Food Summit. I'm really looking forward to visiting

your place; I've heard so many wonderful things from so many beloved friends who have visited

with you before. I work on Deanna Naddy's Highland Realm blueberry farm part time and live in

Maury county. I'm really grateful for you taking the time to autograph your books for me at the

Summit, chat, and hugs. I'll be having regular potluck and music get-togethers in Williamsport at

my place and at Deanna's occasionally also, and y'all are always welcome to come visit. I'll keep

ya in the loop via Facebook, email, carrier pigeon (), or whatever way is most convenient for

you. Thanks for all the knowledge-sharing and inspiration!

Much love and big hugs,

Suzi Cox

I do not know Jeff. I only know what I have watched on pbs. I would like to stay friends on fb and

continue to learn more about Jeff and his farm. Thank you, Carlton

It is so nice to have you and your wonderful farm in this area. Keep up the good work. Thank

you.

Hi Mr. Jeff Poppen,

Me and my husband where traveling through Tennessee and we visited "The Farm" over by the trace, and they referred us to you.

Our Story:

I am a flight attendant and my husband is an engineer. We bother have side businesses, I do holistic health coaching and my husband does environmental ozone treatments and other engineering projects.
I have been helping out a farmer friend of ours, Danny Lutz, for the last 3 years. His farm is Maple Creek Farm. He does biodynamic practices but is more organic than biodynamic, at least in practice. We have helped seed, plant, harvest and this last year we ran the farmers market stand in Royal Oak, Michigan.

We decided that we wanted to learn and see more so my husband quite his engineering job and we sold our house. We bought my Mom's Truck and 5th wheel and hit the road. We want to see how farms, farmland, people and life in general is in other states.
I also want to do anything that will help humanity set new coarse.
We plan to be back in the Tennessee when it warms up and if you have space for our 5th wheel (we don't need a hook up we have the capabiltiy of being self sustaining with our set up) We would love to come visit the farm and learn from you. If there is work to be done we can of coarse work too.

This is of coarse the short version but if you are interested and we could be your guests I could tell you the whole story.

If you want to know more about us we are on Facebook. My name is Angela Cole and My husbands name is Matthias Woletz. Maple Creek Farm is also on Facebook and Danny would vouch for us if you reached out to him.
We look forward to hearing from you.

My husband and I moved to Tn., Hendersonville, about a year ago, and started all over again. He built me 15 raised beds and a chicken coop/garden shed. It's our 7 home and we are starting all over again. We'd love a consultation but can not pay for it.
